Deputy Chief, International Division
Office of Research and Reports

Dear Penny:

Just a quick note to add to all the others you must be getting congratulating you on a much deserved appointment to the Tariff Commission.

This afternoon I received two phone calls from people wanting biographic data about you: from the library of the Commission itself and from a reporter from the UPI. Once more made use of the bulging folder we have on your Federal Woman's Award.

In case he didn't tell you himself, [REDACTED] watched the press conference with Colonel Grogan and myself on the television set in our office. He was actually beaming!

In a few days I'll be sending you a collection of all the clippings about your appointment.

Sincerely,
